

Requirements

1. Movie search

Story 1.1: Search Movies

As a Movie Enthusiast, I want to search for movies so I can learn more about them.

Constraints:

There will be a list of movies, with their name, poster, and IMDB rating.

There should be a search bar, as the user types, the results are filtered in real-time.

Screens:

02 - search (web)

2. Library Management

Story 2.1: Add to Library

As a Movie Enthusiast, I want to store movies that I've watched so I can remember them later.

Constraints:

The storage will be done in a list called "My Library".

There will be a button in the Discovery list to do so.

After adding them, the system will show a pop-up message for success.

Screens:

02 - search (web)

02.1 - search- added (web)

01.1 - pending record (Mobile)

Story 2.2: Visualize Library

As a Movie Enthusiast, I want to view movies from my library so I can keep track on the list.

Constraints:

The list must show the movies with their name, poster, and IMDB rating.

Screens:

01.0 - library (web)

01.1 - pending record (Mobile)

Story 2.3: Remove from Library

As a Movie Enthusiast, I want to remove movies from my library so I can keep my library updated and remove unwanted movies there.

Constraints:

There will be a button in the search list to do so.

Also, there will be a button in the “My Library” list to do so.

01.0 - library (web)

02.1 - search- added (web)

01.3 library - delete (web)

01.4 - library - confirm remove (web)

3. Audio review

Story 3.1: Create Reviews

As a Movie Enthusiast, I want to create audio reviews of the movies in my library, so I can store my thoughts about them.

Constraints:

The review will be done via an audio file.

The review can only be made to movies in the library.

The review must be done in the mobile app.

The review can be done offline, it will be stored locally, then, when there's an internet connection, the audio will be updated to the server. The app must show the status: Synced or Pending Sync.

Screens:

01.1 - pending record (Mobile)

01.2 - recording review (Mobile)

02.1 - review recorded - pending sync (Mobile)

02.2 - review recorded - synced (Mobile)

Story 3.2: Listen to Reviews

As a Movie Enthusiast, I want to listen to my audio reviews of the movies in my library, so I can remember and evaluate them.

Constraints:

The user may listen to the reviews on the mobile app, and in the web app.

Screens:

02.2 - review recorded - synced (Mobile)

01.1 - library - play audio (web)

Story 3.3: Delete Review

As a Movie Enthusiast, I want to delete audio reviews of the movies in my library, so I can remove them if I change my mind.

Constraints:

You can only delete a review from a movie that has been reviewed.

You can only delete a review from the mobile app.

Screens:

02.2 - review recorded - synced (mobile)

03 - delete audio (mobile)
